Subject: Updated Web Map
Date: 07/01/2011 02:27 PM

The map has the location of the 12 EPA samplers (6 from START and 6 from RERT) as well as the 9 USDOE RAP sampling locations. Please let me know if there are any questions. There is not a user name or password needed for this. Click on the monitoring sites check box. EPA locations are in orange and DOE locations are in purple.
